DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

1. Claims 1-7, 11-17 and 21-27 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The omitted elements are: the connection of the difference appearance being different from other modified appearances of the object and the expiration limit of selection/modification of the object because the claims, as currently amended, seem to recite an infinite amount of different appearances associated with the selection of the object however the specification at paragraph 14, drawings at step 214 of Figure 2 and claims 5-7, 15-17 and 25-27 explicitly indicated that once an expiration of object selection is reached, the appearance of the object reverts back to an initial state. In other words, once the object returns back to an initial state, the amended claim language is no long valid (i.e. the different appearance being different from other modified appearances) since the object would already have been modified to the initial appearance. As stated above, the Examiner realizes some of the dependent claims to discuss the expiration however the amended claim language now requires some sort of connection to this element there within. If Applicant is not clear on the above, the Examiner invites Applicant to contact him to further discuss this issue.

Response to Arguments

2. Applicant's arguments, see pages 6-7 of Applicant's Remarks, filed 08/18/10, with respect to the 35 USC 101 rejection of claims 21-27 have been fully considered and are persuasive. The 35 USC 101 rejection of these has been withdrawn since amendments remedy the previous issue.
3. Applicant's arguments, see pages 7-8 of Applicant's Remarks, filed 08/18/10, with respect to the 35 USC 102 rejection of claims 1, 11 and 21 in view of Bedard have been fully considered and are persuasive. The 35 USC 102 rejection of these has been withdrawn since amendments overcome the previous rejection.
4. An updated prior art search has yielded no additional, as per prior art rejection purposes, results.
5. Applicant's amendments have brought about new issues regarding 35 USC 112 as seen by the above required rejection.

Allowable Subject Matter

6. Claims 1, 11 and 17 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
